TAOS NEWS.

From Taos County.

O. B. Stanley has returned to Amizett to resume work on the Minerva company's property.

Carroll R. Dwire, returned home for vacation last Wednesday from Roswell, where he has been attending the Military Institute. He has a good word for the school and will probably complete the course.

B. G. Randall has been work on the foundation of his flouring mill, and has a force of men making adobes for the buildings, which will be frame work with adobe filling.

Jim Shaw was in town from Tres Piedras last Friday and spoke encouraging of the prospects of Good Hope. He returned last Saturday with Dan Noorby, who probably will go to work in that camp.

Messrs. Edgumbe, Pooler and Miller returned from their hunting trip to the Black Lakes last Monday. They report a good time, but not many ducks; fishing however was pretty good, but they all agree that the boat is just the thing for sporting purposes.

Ed. Pierce, who has practiced law at this place for the past eighteen months, left in search for smoother trails and finer pastures last Thursday. He goes first to Denver for a few days, thence we know not where. A number of his friends assembled to see him off and imbibed a little champagne in honor of the occasion.

Miguel Tafoya, a prominent citizen of this place, was picked up a short distance this side of Arroyo Seco, yesterday with his skull fractured and only lived a short time after being brought home. Yesterday morning he left with a horse and buggy for Arroyo Honda, and as he has not been well for some time, it is supposed that he fainted and fell out of the buggy and behind the horse's heels and was kicked by the animal, as the fracture is undoubtedly from a kick by the horse. Many relatives and friends have been summoned and the funeral is being arranged for.

Loch Wamsley drove, into town yesterday. In an interview he stated that as soon as Dr. Bradford of New York had arrived definite plans of the hotel to be built would be drawn up. About \$20,000 is to be spent for that purpose. Probably the hotel will be located a little distance below the toll house and will have accommodations for 200 or 300 guests. The water from the springs is to be piped into the hotel, and if the preliminary plans are carried out, will make these springs the most modern resort in the territory. Some time ago an analysis of the water was made by the Smithsonian Institute and Prof. LeDoux of New York; both the government scientists and the New York savant pronounced these springs to have great medicinal qualities and particularly adapted for the cure of rheumatism.

Territorial Tables.

There are 28 criminal cases pending in the Territorial court.

Miss Flora Whitfield has been appointed deputy postmistress of Raton.

The Oldham Brothers of Raton, have commenced the erection of a brick livery stable 50x120 feet, which they will occupy.

Jose Sanchez and Andres Calles, two parties that were sentenced to hang at the last term of court of Grant county, will be hanged June 7th at Silver City.

One of the greatest wonders of the Southwest is the great mammoth cave at Fort Stanton, five miles from Capitan. This cave has been explored for a distance of seven miles. In many respects it rivals the great Mammoth cave of Kentucky.

Silver City enjoys the proud distinction of furnishing the beautiful turquoise gem stones that were presented Mrs. McKinley at Deming. The gift consisted of two cut stones weighing 1 1/2 and 9/16 carats respectively, also two stones in the rough, all from the Porterfield-Jacker turquoise mines near Silver City. The reception committee exhausted every resource from New York to San Francisco for a gem worthy of the occasion. When inquiry was made at Silver City the stones were promptly furnished.—Silver City Enterprise.
